- * The investment property revaluation reserve represents the attributable revaluation surplus in respect of the leasehold land and buildings, which were reclassified as investment properties in prior years. This revaluation reserve arose while the properties were classified as land and buildings, and therefore is not available to offset subsequent revaluation deficits arising on the investment properties. The revaluation reserve is transferred to retained profits/set off against accumulated losses only upon the disposal or retirement of the relevant assets and such transfer is not made in the income statement.
- ** Pursuant to the relevant laws and regulations for foreign investment enterprises, a portion of the profit of certain subsidiaries of the Group in the People's Republic of China (the "PRC") is required to be transferred to the PRC reserve funds which are restricted as to use. The subsidiaries are not required to effect any further transfer when the amount of the PRC reserve fund reaches 50% of their registered capital. The PRC reserve fund can be used to make good future losses or to increase the capital of the subsidiaries.
- # These reserve accounts comprise the consolidated reserves of HK\$570,137,000 (2009: HK\$475,673,000) in the condensed consolidated statement of financial position.

1. Basis for preparation and accounting policies (continued)

Apart from the above, the HKICPA has issued *Improvements to HKFRSs 2010* which set out amendments to a number of HKFRSs primarily with a view to removing inconsistencies and clarifying wording. The amendments to HKFRS 3 and HKAS 27 are effective for annual periods beginning on or after 1 July 2010 while the amendments to HKFRS 1, HKFRS 7, HKAS 1, HKAS 34 and HK(IFRIC)-Int 13 are effective for annual periods on or after 1 January 2011 although there are separate transitional provisions for each standard or interpretation.

The Group is in the process of making an assessment of the impact of these new and revised HKFRSs upon initial application but is not yet in a position to state whether these new and revised HKFRSs would have a significant impact on its results of operations and financial position.

These unaudited condensed consolidated interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements for the year ended 31 December 2009.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. Operating segment information

For management purposes, the Group is organised into business units based on their products and services and has four reportable operating segments as follows:

- (a) the paint products segment engages in the manufacture and sale of paint products and related services;
- (b) the property investment segment comprises:
 - (i) the investment in residential and commercial premises for their rental income potential; and
 - (ii) the development and sale of properties;
- (c) the iron and steel trading segment comprises the trading of iron and steel products; and
- (d) the “others” segment comprises, principally, securities trading and investment.

The chief operating decision maker regularly reviews the operating results of its operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/(loss), which is a measure of adjusted profit/(loss) before tax. The adjusted profit/(loss) before tax is measured consistently with the Group's profit/(loss) before tax except that interest income, finance costs as well as head office and corporate expenses are excluded from such measurement.

Segment assets exclude pledged deposits, cash and cash equivalents, net pension scheme assets and other unallocated head office and corporate assets as these assets are managed on a group basis

Intersegment sales and transfers are transacted on mutually agreed terms.

The share of tax attributable to an associate amounting to HK\$80,000 (2009: HK\$92,000) is included in "Share of profit and loss of associates" on the face of the condensed consolidated income statement.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

7. Earnings/(loss) per share attributable to ordinary equity holders of the parent

The calculation of basic earnings/(loss) per share amounts is based on the loss for the six months ended 30 June 2010 attributable to ordinary equity holders of the parent of HK\$14,044,000 (six months ended 30 June 2009: profit of HK\$9,891,000) and the weighted average number of ordinary shares of 1,615,404,131 (six months ended 30 June 2009: 1,573,671,409) in issue during the period.

No adjustment has been made to the basic loss per share amount presented for the six months ended 30 June 2010 in respect of a dilution as the exercise prices of the outstanding share options granted by the Company were higher than the average market price of the shares of the Company during the period, and accordingly, the share options had an anti-dilutive effect.

There was no diluting events existed during the six months ended 30 June 2009.

8. Property, plant and equipment

During the six months ended 30 June 2010, the Group acquired items of property, plant and equipment at costs of HK\$13,625,000 (six months ended 30 June 2009: HK\$22,467,000).

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

9. Trade and bills receivables

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The Group maintains a defined credit policy and credit periods are usually granted ranging from one to three months to normal customers. The Group seeks to maintain strict control over its outstanding receivables to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade and bills receivables relate to a large number of diversified customers and reputable banks, there is no significant concentration of credit risk. Trade and bills receivables are non-interest-bearing.

An aged analysis of the trade and bills receivables (that are not considered to be impaired) as at the end of the reporting date, based on payment due date and net of impairment, is as follows:
